

Clark Forklift Part

Clark Forklift Parts - Performing globally, there are currently 350,000 Clark forklifts and lift trucks in operation, with in excess of 250,000 of those in use in North America. Clark has five main lines of forklifts across the world, making it one of the most expansive corporations in the industry. Heavy duty trucks ranging from 1,500lb to 18,000lb capacities, dual fuel, petrol, LPG, hand powered trucks, narrow-aisle stackers and electric riders are a few of their specialties.

Clark Totalift has 20 unique designs of lift trucks, with components covering more than 120,000 particular items for all of its automated equipment. Your local Clark Supplier is your complete source for availability of all your components needs provided by Clark Totalift.

Clark has a phenomenal Parts Distribution team. The components warehouses are conveniently stationed in Changwon, South Korea and Louisville, Kentucky to ensure exceptional service to both their buyers and their sellers. For over 90 years, Clark has surpassed industry standards, being one of the most actively advancing producers. Driven to offer the highest level of value and service to our clients, Clark remains on the cutting edge when it comes to improving output and benefiting performance.

Internationally, Clark has one of the most amazing dealer support networks. With over 550 locations globally, dealer representation in over 80 nations and 230 locations in North America, their high level of commitment to their customers predominates the material handling market.

By pioneering the operator restraint system protection feature, Clark proudly remains a leader of innovation in the industrial equipment and automated forklift industry. This exceptional dedication to safety is now a standard feature on every forklift.

Clark has a continual objective to have the No. 1 quality system in the industry which is demonstrated by their dedication to ISO standards. Clark, is the first manufacturer of forklifts and lift vehicles to be globally certified with quality standard ISO 9001 in all of its manufacturing facilities. Furthermore, the ISO 14001 Environmental Conservancy System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement permits Clark to be prepared for any environmental restrictions, thus placing them in a prevailing industry position.

Clark has preferred the very economical and advantageous system of "Lean Manufacturing" for its assembly plants and use of resources. This system was developed to acknowledge the most effective method of production plant management and ensuring maximum proficiency. Clark has concluded this transition of its Korean plant. COPS which is Clark Optimized Production System, similarly focuses on quality of product and services and manufacturing efficiencies.

Clark's product engineers and suppliers communicate together to upgrade the efficiency and brilliance of their merchandise while minimizing costs. The new value engineering agenda combines progressive product growth and provides superior consumer support and service within the industry.
